SMART

PACKAGING MACHINE

PANOTEC®

THE PANOTEC YOU HAVE BEEN WAITING FOR

Smart is the packaging machine that combines simplicity, reliability, and a compact footprint. Designed for companies seeking an efficient and cost-effective solution, Smart enables flexible production of packaging for a wide range of products, easily adapting to any production space. Easy to use and maintain, it's the Panotec you've always wanted: a packaging machine that boosts production efficiency while perfectly fitting within your budget.

Particularly suitable for:

- Small-sized companies
- Basic production needs
- Over 2 boxes per minute
- Production of small batches or in flexibility (batch size 1)

TOOLS FOR CUTTING AND CREASING

Completely automated positioning of the units

Smart has 1 transversal unit and up to 7 longitudinal units.
Each unit can be equipped with different types of tools and sets up automatically.

Transversal Unit

Groove cut
Standard creasing

Longitudinal units

Pressure cut

Standard creasing

CONTROL PANEL

The control terminal is detached from the machine and installed on a structure.
# CARDBOARD FEEDER

AUTOMATIC CARDBOARD LIFTER (2 LEVELS)

Two inline cardboard cassettes for fanfold storage, each designed to accommodate 2 side-by-side cardboard modules (Side by Side mode), doubling the capacity to 4 cardboards. With this configuration, the machine automatically selects the most suitable size from those available to optimize cardboard consumption.

1 LEVEL WITH 2 FANFOLD SIDE BY SIDE

The machine can operate with a single level accommodating 2 side-by-side cardboard modules (Side by Side mode).
